

Appl. No. : 9/316,518
Filed : May 21, 1999

REMARKS

After entry of the foregoing amendment, Claims 24-96 are pending in the application and are presented for examination.

Per this amendment, the as filed specification and drawings have been replaced with the attached substitute specification and drawings. The attached substitute specification and drawings are the specification and drawings of Application No. 08/974,376, filed November 19, 1997, entitled "An Adaptive Time Division Duplexing Method and Apparatus for Dynamic Bandwidth Allocation within a Wireless Communication System." Applicant has changed the specification and drawings of Application No. 08/974,376 in three ways. The first change was to shorten the Abstract section. The second change was to add the phrase "Prior Art" to Figure 1. These first two changes were required during the prosecution of Application No. 08/974,376. The third change was to add a RELATED APPLICATIONS section which claims priority to Application No. 08/974,376, filed November 19, 1997, entitled "An Adaptive Time Division Duplexing Method and Apparatus for Dynamic Bandwidth Allocation within a Wireless Communication System," now U.S. patent number 6,016,311.

Application No. 08/974,376 was incorporated by reference in this application. More specifically, in the section titled CROSS-REFERENCE TO RELATED APPLICATION in the as filed specification, Applicant stated "[t]his invention is related to commonly assigned co-pending Application No. 08/974,376, filed November 19, 1997, entitled 'An Adaptive Time Division Duplexing Method and Apparatus for Dynamic Bandwidth Allocation within a Wireless Communication System', hereby incorporated by reference herein." Thus no new matter has been added with the replacement of the as filed specification and drawings with the attached substitute specification and drawings.

Since the entire specification of the as filed application is being replaced, another version of the substitute specification showing changes relative to the as filed application is not submitted.

Appl. No. : 09/316,518
Filed : May 21, 1999

If the Examiner finds any impediment to entering this amendment that could be clarified with a telephone conference, the Examiner is invited to call the undersigned directly.

Respectfully submitted,

KNOBBE, MARTENS, OLSON & BEAR, LLP
